

Risk Heat Map Dashboard

Executive risk visualization, portfolio trends, and key risk indicators

Executive Risk Dashboard

Sample portfolio visualization based on eight enterprise risks. Risk score equals likelihood multiplied by impact. Scores of 15-25 are High, 8-14 are Medium, and 1-7 are Low.

Risk Summary

Risk	Description	Score	Trend
R1	Excessive user permissions	20	Stable
R2	Delayed critical patching	15	Improving
R3	Phishing and credential theft	16	Stable
R4	Vendor control weakness	12	Worsening
R5	Backup restore failure	10	Improving
R6	Incomplete endpoint coverage	12	Improving
R7	Outdated policies	6	Stable
R8	Untested disaster recovery	10	Worsening

Key Risk Indicators

KRI	Current	Target
Critical patches within SLA	87%	>= 95%
Quarterly access reviews complete	75%	100%
Critical vendors assessed	82%	100%
Endpoints reporting to EDR	94%	>= 98%
